SHINGUARD RANGE

SHIN GUARDS

**OUR PROFESSIONAL QUALITY,
TOTALLY BREATHABLE SHIN GUARD**

SHIN GUARD TESTING

Football is a contact sport and as such presents a number of hazards that cause injury. Shin guards cannot always prevent serious injury but are designed and developed to reduce the severity of abrasions and bruises to the player's shin.

In Europe, shin guards that claim to offer protection to the player are considered to be intermediate category personal protective equipment and as such shin guards must be tested and marked; shin guards are tested against the BS EN 13061:2009 Standard. This standard assesses the shin guards for a range of properties, including impact resistance, comfort and ergonomic fit.

The mark can be found on all Mitre shin guard labels, as well as the user information and product care leaflet.

CUSTOMISED FOOTBALLS

Need to add your club badge to your footballs? With Mitre it's easy. We can do a name or simplified badge for your football club. We would need to see the design prior to accepting the order.

1. CHOOSE A CUSTOMISABLE FOOTBALL

Selected Mitre footballs can be printed with either your logo and text or just text.

LOGO/TEXT

Printed above the Mitre logo. Logo max. 20mm square. Text max. 50mm length.

Heat Printed using our Special Made Ball Printer. Not to be used on Concrete.

2. YOUR LOGO

For optimum results your logo should be a flat simplified shape (no gradients or intricate lines), supplied as a vector file. For artwork supplied flattened or raster format, such as JPG, BMP, TIF, an artwork fee will be charged for turning the supplied artwork into a usable design.

The example to the right shows how a logo may need to be simplified.

3. CHOOSE LOGO AND / OR TYPEFACE COLOUR

Ask your Mitre representative for options on colour and fonts

4. CHOOSE A QUANTITY
